In addition to Photoshop's raster (pixel-based) editing tools, Adobe also offers the alternative Affinity Photo, which shares many of the same features as Photoshop. Affinity Photo is made to be an easier program for beginners to use, being less intimidating and simpler to use than Photoshop. There are tutorials for Affinity Photo on the web, and it has a very active user community and discussion board. However, some of the features, especially the advanced ones, of Photoshop are not available in Affinity Photo. It is a more

targeted software, but it doesn't compete with the full power of Photoshop. Prose/Poetry Amber A's essay "Why Poetry?" is the first of numerous writings from students at the Lise Meitner Literature Center in Vietnam on the subject of literature. She was able to visit the Center last year, and the writer focuses on her experience of how poetry can change minds. In the second part of Amber's essay, she focuses on her family's history of emigration, specifically how they left the country for good due to the Vietnam War and came to the United States to start a new life. The third section of Amber's

essay is about Vietnamese culture and traditions. She, in particular, addresses what it was like growing up as a child in Vietnam, and what values her family hold as a permanent part of their society. Written in the voice of Ma, the mother, is a personal memoir of the author. Ma shares how the best human experiences, such as trust, love and respect, are all interconnected. Vietnam Center posts essays and other writing by Vietnamese students at both American universities and in-school English language programs. Students may submit their own writing or work created with the help of a mentor or instructor at the

Center. As you read through the essay, you'll notice that it is a combination of three parts: 1. The mother's voice, 2. Ma's voice, and 3. Ma's voice again. Each voice picks up just a few sentences at a time and slowly builds into a bigger story. This essay has been written to help teach the writer about the emotional value of the word repetition. It also challenges the audience to practice the same point of view every time we read, write, or speak. This essay was written to help teach the writer about the power of letters. It also challenges the audience to practice the same point of view every time we read, write, or speak. The

author wrote the first part of the essay and her mother wrote the second part. The author of this essay tells the story of the author's teen years, and it is for the purpose of educating people on how music has affected her life. It is argued that music gave her faith, and allowed her to accept the suffering that comes with life. The author shares her perspective on lyrics and how they can be written or sung in the voice of a specific group.
