UNIGE - Université de Genève - EPFL - Institut de Technologie Domestica. We are happy to announce that Ethereum, the 8th largest cryptocurrency by market cap, has made available in its platform a setting which can be activated by the users to charge their tokens using their external wallets. Ethereum's setting to enable third-party wallet payment. Their users can now switch on this feature which enables them to pay for their Ethereum tokens using third-party wallets. The official announcement was made on their official telegram channel. Users can activate the option by logging into their account and clicking the "Wallet Options" tab. Then, they can find the "Payments" option which enables them to select which third-party wallets they would like to enable to make payments. In addition to this, the users can also select the "Amount for Bitcoin" and "Amount for Ether" to be used as transaction amounts. It should be noted that the users need to add the funds required for the payment to their specified wallets before they enable the payment option. Third-party wallets available on this payment option: The platform currently supports 5 different third-party wallets, which include MyEtherWallet, Parity MultiSig, MyCrypto, MetaMask, and more. These third-party wallets are available in the platform which enables the users to interface with them from a wallet that they are already using. The Ethereum official Twitter account shared an announcement in which they announced the addition of various digital asset marketplaces supported by their platform as external wallets for paying. The original order asks the court to "determine if defense of patent litigation, particularly as it pertains to Amazon, is a valid use of state action that must be authorized and implemented by the legislative branch." The Journal also published a copy of the request which showed Amazon was already working with one of the state's top lawyers. The company has been at the center of a legal battle between bookstores and the company after the latter illegally released a new listing for the product in violation of state law. Amazon has continued to sell the product after the state sued to force the company to stop. As the journal noted, the case is just the latest issue for Amazon, which has been battling to stay through a

I want to parse Wikipedia in client side and show the result in my page. Actually, my question is to know if can we parse in client side. I have checked this link of Stackoverflow: Wikipedia XML Parsing on client side But, it talks about client side parsing of XML. Can you know if Wikipedia can be parsed in client side? Thanks. A: You can use the Wikipedia API in JavaScript. A quick search brought up this (by me): (Note that I haven't tested this, so I'm not guaranteeing it works) It should work pretty well. Q: How to route/modify HTTP POST to REST API in Spring Boot? I am a newbie here. I am making a
